Support Material Units

Crossways is the framework for the local school development of the Religious Education Curriculum. These Support Material Units are not offered as a centralised curriculum, but as examples, and support for school based curriculum.

Each Support Material Unit suggests a topic and ideas for teaching and learning that assist students towards achieving a particular Learning Outcome. A Support Material Unit is only one example of interpreting and applying a Learning Outcome.

Persons associated with Catholic schools in South Australia are encouraged to reproduce sections of this document for educational purposes in South Australian Catholic schools. However, copyright is implied in all other circumstances and requests for use of material should be directed to: The Coordinator - Religious Education, Catholic Education Office, 116 George St, Thebarton SA 5031.
