

# How to set up the OneNote Class Notebook Creator (For Teachers)

OneNote Class Notebook Creator is a free app for SharePoint designed for teachers to collaborate with students in their classroom. It saves a lot of time and effort by setting up a Notebook with a set of predefined permissions to quickly allow Teachers and Students to share their work.

## Step-by-step guide

1. Make sure your ICT Administrator has installed the OneNote Class Creator App in the Sharepoint Administration Console. If this hasn't been done yet, your ICT Administrator can refer to [this guide](#)
2. Refer to the [OneNote Class Creator User Manual](#) for help on how to set up your classroom with the App.
